When ordering please refer to the sizing charts & measurement tips below:

Have gymnasts wear fitted attire (preferably a leotard–no street clothes!) with proper undergarments in order to ensure the most accurate measurements.

• **Bust/Chest** - Measure around the fullest part of the chest, keeping the tape horizontal, and have gymnasts stand with arms down at their sides.

• **Waist** - To identify the natural waistline, instruct gymnasts to bend over to one side and have the measurer place a finger at the indentation. As the gymnast stands up, use this point as the indicator for where to measure around the waist.

• **Inseam** - Place the measuring tape at the inner leg and measure from that point to the floor.

• **Hips** - Have gymnasts stand with their feet together and measure around the fullest part of the buttocks.

• **Girth** - Girth is the most important measurement when determining size on one-piece garments! To measure girth, place a tape measure at the top of one shoulder where a leotard strap sits, then down through the legs and back to the same shoulder. The measuring tape should be close to the body but not tight.
